EXPERIENCE

SLING NEO

Software Engineer Intern

Bengaluru, Karnataka

May 2023 - July 2023

- Developed responsive UI/UX in Flutter, integrating frontend-backend with Firebase, reducing load times by 40%.
- Streamlined state management with Provider and Riverpod, boosting performance by 30%.
- Improved backend functions for user login and data syncing, ensuring 90% accuracy.

TECHNICAL SKILLS

- **Programming Languages:** Python, Structured Query Language (SQL), JavaScript, C, C++
- **Technologies & Frameworks:** React, Flutter
- **Backend:** Django, FastAPI, Node.js, Express.js, ASP.NET Core, Microservices
- **Developer Tools:** IntelliJ, VS Code, Amazon Web Services (AWS – EC2, Lambda, S3, RDS), Google Cloud Platform (GCP)
- **CS Fundamentals:** Data Structures & Algorithms, DBMS, Operating Systems, (OOP), Design Patterns
- **Databases:** PostgreSQL, Microsoft SQL Server, Redis, MongoDB

PROJECTS

Medi Connect | [Flutter, Dart, Firebase, Python](#)

[View Project](#)

- Engineered a Doctor Appointment Booking App using **Flutter** and **Firebase**, implementing real-time scheduling, profile management, and chat functionalities to enhance patient-doctor interactions.
- Integrated **Firebase Authentication** and **Firestore** to enable secure login, real-time data updates, and cloud-based storage, ensuring seamless user experience and data consistency.
- Leveraged asynchronous programming using Dart's Future and Stream APIs, achieving a **20%** improvement in app performance metrics.
- Implemented a Clean UI with Provider State Management, optimizing performance and responsiveness by **20%** while maintaining a structured, scalable codebase for future feature enhancements.

AICTE Insights App | [Flutter, Firebase, Dart, Python, SQL](#)

[View Project](#)

- Constructed a Mobile Dashboard Application for **AICTE (All India Council for Technical Education)** using Flutter and Firebase, providing a structured and user-friendly interface for accessing key data and statistics.
- Implemented Interactive Data Visualizations with graphs and charts, enhancing decision-making efficiency by **30%** through intuitive data representation.
- Optimized Performance with Single-Page Navigation, enabling smooth scrolling and **40% faster data accessibility** for an improved user experience.
- Worked with 3+ mentors to refine solutions based on stakeholder requirements.

Depression Detection System | [Flutter, Firebase, Django, Machine Learning, Google Colab](#)

- Built an innovative depression detection system integrating NLP, Flutter, Firebase, and deep learning, achieving 92% accuracy in predicting depression from user voice notes and activity logs.
- Collaborated with a team of 4 to design intuitive interfaces and implement backend functionalities, leading to a 25% increase in user engagement.

EDUCATION

Vellore Institute of Technology Bhopal

Bachelor of Technology in Computer Science

September 2021 - May 2025

7.81/10

ACHIEVEMENTS

- **National Winner** - Secured **1st place** in the [Smart India Hackathon 2022](#), organized by the **Ministry of Education & AICTE**. Awarded a **₹1 Lakh** cash prize for developing an innovative solution.
- Solved 500+ Problems on various Coding Platforms.
- Active participant on **Codeforces (max rating: 1286, Pupil)** solving algorithmic challenges regularly.
- Advanced to the internal rounds of the [Smart India Hackathon 2023](#) and reached Round 2 of the **Tomato Grand Challenge 2023**, hosted by the **Ministry of Consumer Affairs**, competing among top innovators.
- AWS Certified Cloud Practitioner - [Link](#)
